Professional Summary

UI/UX Designer focused on creating intuitive digital experiences through user-centered design, motion graphics, frontend development, and applied AI. I design, prototype, animate, and build digital products that combine thoughtful UX with modern technology.

Work Experience

TLB Marketing Solutions

Social Media Manager & Senior Video Editor

Feb 2025 – Feb 2026

Chennai, India

- Managed social media content and creative direction for multiple client brands.
- Planned and produced short-form videos, promotional content, reels, and branded visual content.
- Edited videos and created motion graphics, transitions, typography animations, and visual effects.
- Developed creative concepts based on brand identity, target audience, and marketing objectives.
- Maintained consistent visual quality and brand identity across social media content.
- Collaborated with clients and marketing teams to deliver creative projects within deadlines.

Clients: Pryzma Gadgets • Phoenix Electronics • Kaha Stitching Studio • The Dusty Magics • Hana Packers • Sabena Sealers • Tuckin Menswear

Selected Projects

FinX

Fintech | Product Design | AI

AI-powered personal finance platform designed to help users understand spending, manage budgets, and make better financial decisions.

- Designed dashboard, transactions, budgeting, analytics, and account-management experiences.
- Created reusable UI components and structured financial workflows.
- Explored AI-powered spending insights and intelligent financial assistance.

Design Debt Auditor

AI Product | UX Tool

AI-powered design auditing concept that identifies usability, accessibility, and visual design issues in digital interfaces.

- Designed the product workflow for AI-powered design analysis.
- Created dashboards for reviewing design issues and recommendations.
- Focused on turning complex design feedback into actionable improvements.

PHC Federated Health Platform

Healthcare | AI | Hackathon

Federated AI platform concept for improving visibility and decision-making across public healthcare resources.

- Designed dashboards for monitoring healthcare resources and operational data.
- Created information architecture and workflows for complex healthcare systems.
- Explored AI-powered forecasting and decision-support experiences.

A2S Embroidery Studio

Client Project | UI/UX | Web Design

Premium responsive website designed for an embroidery studio to showcase craftsmanship, services, and custom work.

- Designed the visual identity and responsive website experience.
- Created clear navigation and content hierarchy focused on customer enquiries.

Motion Graphics
